

Safe Sites

Volume I / 2020, Issue 67

ITD Cementation India Limited

A Periodical on "Safety in Construction"

Pen Point

All our Project sites In India & Myanmar celebrated National Safety Day and Company Safety Week from 04 Mar to 10 Mar 2020. During the celebrations, various activities were carried out to create awareness amongst staff, workers & other stakeholders. We have included few photos of celebrations at Project Sites, Offices and Depots in this issue.

Unfortunately, we are facing outbreak of Coronavirus (COVID-19) all over the world. WHO has already declared a Public Health Emergency of International Concern (PHEIC) and categorized it as a "Pandemic". Our country also could not escape this Pandemic crisis. Indian Govt. is doing its best to save people. It is our duty to obey Govt.'s directives and follow health guidelines to prevent its further spreading.

Company has made necessary arrangements for all staff to work safely from home or guesthouse. Also made necessary arrangements for workers to take care of their health and daily food requirements to stay safe at Site Labour Camps.

Our Project sites, Offices and Depots shall follow SHOP-29 and take care of following points for resumption of work after lockdown is over –

- Continue Monitoring body temperature of staff, workers & others at the entrance. Carry out medical checkup of those who have travelled from outstation & send suspected case to the hospital for further treatment. Do not depute sick people.
- Follow Social Distancing norms all the time. Avoid gathering, meeting and travelling until further instructions from the Top Management.
- Wash your hands regularly with soap & water, use sanitizers. Maintain personal hygiene.
- Cover your mouth & nose with handkerchief or elbow while sneezing & coughing.
- Wear full sleeve clothes & mask. Use hand gloves whenever required.

By continuing our efforts, we will definitely win over COVID-19 very shortly. Happy and Safe working.

Pravin Panchal

Company Won First International Safety Award (ISA) 2020 from BSC

After achieving NSCI Silver Trophy for NMRCL Project, our **Coal Jetty Marine Project at Udangudi (Div-4)** has won the International Safety Award (ISA), organized by **British Safety Council (BSC)** - United Kingdom.

Presently the International Safety Awards are Health and Safety's most prestigious award scheme across the industry. They recognize organisations that have demonstrated commitment to Occupational Health, Safety and Wellbeing, regardless of their size or the sector they operate within.

Total 577 players participated across the globe for the awards & out of which only 87 were rewarded in **DISTINCTION GRADE** & ITD Cem is one amongst the elite group of winners securing **91.4%** marks.

This is the First International Safety Award won by our Company, the reason being excellent EHS performance, well-matured OHS Management System and recent certification to ISO 45001:2018. Kudos to ITD Cem Top Management & All Employees....

Hierarchy of Controls For Corona Virus

Elimination- Isolate yourself from the world if possible. Be with your family and stay home.

Substitution - if cannot isolate use remote means of work. Use internet and phone if possible.

Engineering or medical control - keep a check on body temp, coughing, sneezing and wash your hands frequently.

Administrative control - maintain social distancing. Keep a distance of 1.5 meter while talking to people.

Use personal protective equipment- better use mask while going outside.

WE ARE COMMITTED TO SAFETY
